Zoom in REFERENCE & RESEARCH DIVISION

Introduction

Universiti Sains Malaysia (USM) Library strives to provide the best services possible to their users who are the students, lecturers, researchers and its affiliates. One of the divisions which is responsible for this is Reference and Research Division. The division manages reference inquiries, provides and assists users with information needs, conducts a free based library instruction classes on the use of the library resources and coordinates few library programs with schools of USM in support of information searching activities.

The division is handled by five well-qualified Reference librarians who are on duty at the i-Counter located at the new library building that operates from Monday to Friday from 8.30am to 5.10pm.

With the lovely ambience of the new building, our Reference librarians help users to select appropriate reference sources for their assignments or theses. In addition to offering one-on-one assistance, they also offer online help through library's email, Facebook and Online Chat, routed to the division.

Above : i-counter where the reference librarians are ready to extend the services.

Services

EndNote Workshop

Aims to expose users to EndNote software that will help them to manage references and create bibliographies for their publication. Users may learn on how to store and organize references from many sources, inserts citations into a Word document, and automatically formats the references according to a predefined citation style. Topics covered include how to prepare bibliography/ list of references, prepare citation and retrieve manuscript templates. Interested members may register online via <http://referencephsuscsm.wordpress.com/schedule/> or through walk-in at the counter.

Librarian and participants after the workshop

Taklimat Kembara

Taklimat Kembara is a request based service that is extended to the Schools in USM. Participants who are academicians and researchers will be exposed to the information resources and services provided by PHS. Interested Schools may contact :rujukan@usm.my or call 04-653-5350/5365

[Jom Cari Maklumat@Perpustakaan](mailto:JomCariMaklumat@Perpustakaan)
(Let's Search Information @Library)

Aims to educate new undergraduates to effectively search KRISALIS and retrieve information on library resources.

Database of the month

Training session specially organized to teach and guide library users on how to access and fully benefit from specific database subscribed by PHS. It aims to improve searching and retrieval skills of specific database efficiently.

Services

Industries and Science Information Service (MIDAS)

The fee-based library service membership offered to the industries and trade communities in the northern region of the peninsula Malaysia. It allows employees of registered companies to use selected library's services and facilities. Members will also be updated on the trade and commercial information, product information, book reviews, recent additions of British Standards to the Library's collection, research information from USM and current awareness service through a special bi-monthly bulletin known as MIDAS Bulletin. This bulletin may be accessed via library website.
