

## Official Opening of Zhulian-USM Joint Laboratory on 1 November 2014

The **School of Industrial Technology, Universiti Sains Malaysia (USM)** has recently erected a seven-storey building with the primary aim of housing a new Program, the **Bioprocess Technology Program**.

In addition to offices, functional rooms and a pilot plant, this new building will also house several research laboratories. These laboratories will be equipped for teaching and research activities including those for postgraduate studies (PhDs and MScs) under the Bioprocess Technology Program.

**Zhulian Marketing (M) Sdn. Bhd.** has funded the development of several research laboratories, *via* a contribution of **RM 500,000**. The laboratories were officiated on 1st November 2014.

In line with USM's effort to promote and foster industrial linkages and collaborations, the **entire fourth floor** of the new building will honor Zhulian's contribution and is named the **Zhulian-USM Joint Laboratory**.
