## INTERNATIONAL SEMINAR ON ISLAMIC CIVILIZATION AND THOUGHTS ( INSIST 2017 )

*Towards Civilization Sustainability  
and Universal Peace*

*Date: 20 - 21 November 2017*

*Venue: Dewan Persidangan  
Universiti,  
Universiti Sains Malaysia,  
Pulau Pinang.*

## INTRODUCTION

Islamic civilization was well-known for its significant and tremendous contribution to the advancement of science and technology in its golden era. This was due to the appreciation and effort among the Muslim scholars in the past about translating the teachings of the Quran into a realization as the contents of the Quran very often emphasizes on the importance of knowledge, wisdom, science and *adab* (ethics) in order for human being to achieve a successful life in this world and in the Hereafter.

This seminar aims to persuade Muslim scholars and scientist to enlighten mind of intellect and to contribute to the whole world for solution of current political international relations, economic, education, social problems, well-being of the society as well as environmental protection to ensure a sustainable pattern of lifestyle, thereby contributing to the betterment of the planet for the benefit of both the present and future generations. In other words, this seminar intends to revitalize the Islamic intellectual and religious tradition and reclaim the dynamic and leading role of the Muslim *ummah* in the modern world.

This fundamental aspiration was crucial to revitalize contemporary Muslim *ummah* and to inspire the flowering of ideas, arts, philosophy, education, science and technologies etc in our modern time for the purpose of promoting rigorous civilization renewal of the Muslim *ummah* as well as for the benefit of the whole mankind in general.

## OBJECTIVES

The objectives of INSIST 2017 are as follow:

1. To discuss about how Islamic studies, Islamic science and Islamic civilization can be regenerated to create great contributions to the society and become role model in the global world.
2. To articulate the potential contributions of Islamic civilization to the enhancement of Islamic science and technology and its implementation in society and the living environment.
3. To encourage and highlight innovative measures and technologies which can be contributed by Muslim scientists and researchers for the advancement of Islamic civilization in today's global world.

## PARTICIPATION

The seminar is targeted at the following groups:

Experts from academia, scholars, researches, NGOs, think-tanks, post graduate students and publics.

Around 100 participants are expected to join this seminar.
