Api Polymer Inc (API), an American company, intends to establish a wholly-owned subsidiary company, Allied Batteries Sdn Bhd (ABSB) in Perai, Penang to manufacture batteries for export.

The Malaysian Industrial Development Authority has confirmed that ABSB would be eligible for either pioneer status or investment tax allowance (ITA) incentive for a period of 5 years under the Promotion of Investment Act, 1986.

API has prepared the following financial projections in respect of the project in Malaysia:

Year ending	2009	2010	2011	2012	2013	2014
31 December	RM'000	RM'000	RM'000	RM'000	RM'000	RM'000

ABSB is expected to start incurring capital expenditure on the factory building on January 1, 2009 and commence operations in January 2010 after the completion of its trial run in the same month.

It is assumed that:

- (i) The incentives will commence on 1 January 2010.
- (ii) The rate of annual allowance for plant and machinery is 20%.
- (iii) The adjusted income/loss is equal to the net profit/loss before depreciation.

Api Polymer Inc (API), sebuah syarikat dari Amerika, merancang menubuhkan sebuah anak syarikat pemilikan penuh di Perai, Pulau Pinang dengan nama Alied Batteries Sdn Bhd (ABSB) untuk mengeluarkan bateri untuk dieksport.

Malaysian Industrial Development Authority (MIDA) telah mengesahkan bahawa ABSB layak untuk mendapat taraf perintis atau penggalakan elaun cukai pelaburan bagi tempoh selama 5 tahun di bawah Akta Penggalakan Pelaburan, 1986.

API menyediakan ramalan kewangan berikut mengenai projeknya di Malaysia:

Tahun Berakhir 31 Disember	2009 RM'000	2010 RM'000	2011 RM'000	2012 RM'000	2013 RM'000	2014 RM'000

Rancangan untuk mengemukakan permohonan untuk mendapatkan lesen pengilangan dan juga penggalakan pelaburan telah dilakukan oleh API pada awal Disember 2008. ABSB akan mula mengenakan perbelanjaan modal untuk bangunan kilang pada 1 Januari, 2009 dan operasi akan bermula pada bulan Januari 2010 selepas kendalian percubaan di dalam bulan yang sama.

Question 5 (20 marks)

P Consolidated Bhd (PCB) has the following existing group structure:

Besides being an investment holding company and providing management services to its subsidiaries, P Consolidated Bhd (PCB) also operates a rubber and oil palm estate which has been incurring losses over the years.

P Holdings Sdn Bhd (PHSB) is an investment holding company formed solely to hold the shares in P Industries Sdn Bhd (PISB) and P Manufacturing Sdn Bhd (PMSB). PHSB has been incurring losses from the provisions of management services to PISB and PMSB.

P properties Sdn Bhd (PPSB) owns a block of condominiums, which has been rented out ever since its acquisition. These condominiums were acquired with an advance obtained from PCB, which in turn took a loan from a bank bearing interest at 7.5% per annum. As PPSB is making losses, it is expected that PPSB will be profitable in the next few years.

PISB is engaged in the manufacturing of electrical appliances and has been enjoying investment tax allowance which will expire in 2 years time. It is a highly profitable business and has been paying tax exempt dividends ever since it commenced operations.

PMSB is engaged in manufacturing textiles for the export market and has been granted pioneer status incentive 2 years ago. It has been incurring substantial losses due to stiff competition. It is not expected to turn around in the near future.

P Trading Sdn Bhd (PTSB) is engaged in the marketing of products manufactured by PISB, PMSB and third parties. PTSB is currently profitable but has not paid any dividends although it has significant Section 108(6) credits.
