QUESTION 1 (30 marks)

This question consists of three parts: A, B and C.

A. Read TEXT A and then answer the following questions.

TEXT A

SOLAR STRUCTURES
Lot 8, Jalan 13/2, Section 13, 46200 Petaling Jaya

9th March 1996

Mr R. Chandran
8-D Jalan Bunga Raya
11900 Bayan Baru
Penang

Dear Mr Chandran

With regard to your letter of 25th February, please find enclosed the requested literature, including our current price list and colour brochure.

For your information, solar glazing panels come in two types: fiberglass and acrylic. For your needs I would recommend either our No 2400 series free-standing modal Solar Structure or our in-stock solar glazing panels.

After looking through the brochures, please give me a call if you need any further information. By acting now you won't let the weather stop you and your family from enjoying the comfort and relaxation of your beautifully enclosed swimming pool.

Sincerely yours

Christina Lam
Customer Service

Enclosures (2)

Angka Giliran:.....

No. Tempat Duduk:.....

1. What is the main communicative function of TEXT A?

2. Why did Mr R. Chandran write to Solar Structures?

3. Give a suitable subject for the text:

4. What do you think Mr Chandran will do if he does not find any enclosures?

Angka Giliran:.....

TEXT C

XYZ Components Ltd.

To : All Employees

Date : 23rd February 1996

From : The Company Secretary

Subject: Visit by Mr Sven Vassen
of Vassen Industries

From 8th to 11th March, Mr Sven Vassen of Vassen Industries, Oslo and two of his colleagues will be looking around the factory as his firm intends to place a large contract with us to supply them with components over the next three years.

Vassen Industries is part of the export drive that we have been preparing to enable us to enter the Scandinavian markets. It is therefore essential for us to make a good impression on these visitors.

Although they will be escorted by Abdullah Aziz, our overseas Sale Manager, it may be necessary for individual employees to answer questions or explain production procedures in their section. Would you therefore prepare yourself so that you can be as helpful and informative as possible? It will also be necessary for lunch hours and breaks to be arranged so that there will always be someone available in every section.

Your co-operation in this matter is essential and will be appreciated.

Kalthum Muhammad
Company Secretary

QUESTION III (45 marks)

This question consists of two parts: A and B.

A. Read the two extracts below and then answer the questions.

EXTRACT (i)

A number of artificial languages have been developed to try to solve the world's communication problems by providing a language which is easy to learn and can express all the concepts needed for modern life. The only one to have much success is Esperanto which claims 10 million speakers. It has a limited vocabulary and its grammar has no irregularities. Like other artificial languages it is based on Western European languages so that for learners whose mother tongue is not a European language, it is not particularly easy to learn. There are very few books and almost no films or newspapers in Esperanto.

1. The topic sentence in EXTRACT (i) is:

2. Write down one major supporting sentence:

3. Write down one minor supporting sentence:

Angka Giliran:.....

No. Tempat Duduk:.....

EXTRACT (ii)

All of us communicate with one another nonverbally, as well as with words. Most of the time we're not aware that we're doing it. We gesture with eyebrows or a hand, meet someone else's eyes and look away, shift positions in a chair. These actions we assume are random and incidental. But researchers have discovered in recent years that there is a system to them almost as consistent and comprehensible as language.

1. The topic in EXTRACT (ii) is:

2. The main idea in EXTRACT (ii) is:
